

Instructions for Using Zoom's High Fidelity Music Mode

The Zoom software or app must be downloaded onto the device you are using for your audition. A Zoom account is optional but recommended.

If you do not have Zoom installed on your device (computer or tablet required because High Fidelity Music Mode is not supported on smartphones) go to the [Zoom Download Center](#), find the **Zoom Client for Meetings** section, and click **Download**. The version number may differ depending on whether you're using a Mac or a PC.

CHECK YOUR AUDIO SETTINGS

1. Make sure you are using the most recent version of the Zoom desktop client.
2. Launch Zoom and click the gear icon ⚙️ on the top right hand corner of the screen.
3. Click the **Audio** tab.
4. Under the Microphone options, select your external microphone.
5. Match the remaining options to the red box below.

BEST PRACTICES

- » Upon entry to your virtual audition room, you must turn on your **Original Sound** by clicking the button on the top left corner to read **Original Sound: On**
- » Use a computer with a hard-wired (connected directly to your router or modem) internet connection. Minimum speed requirement is 10Mbps download, 10Mbps upload. You can test your speed [here](#).
- » Use an external microphone (highly recommended) and headphones/earbuds (optional).
